just rendered a decision in the case of the heirs of Herman Speidle against Jacob Henrici, brought on an appeal from the United States Circuit Court for the Western district of Pennsylvania which brings to

light an interesting story. In 1801 Geo. Rapp, brought to this country from Wurtemburg about 50 families and settled on the banks of the Ohio river about 20 miles from Pittsburg. The company were known as the "Harmony economists" and the town they fancied was called Economy. Rapp not only installed himself as leader, but informed his followers that he was their prophet and that they would jeopardize their salvation if they failed to turn all their property over to the church, he being the self-same church. This was done and then the seif-made prophet issued another edict forbidding marriage among his subjects. Everything went smoothly with the colony, and they flourished and were apparently happy until the year 1831, when one of their number, Herman Spiedel, revolted, went to Pittsburg and married. It was to recover his portion of the wealth of the "Economy" society that his heirs brought suit. The are in affluent circumstances. Henrici, the defendant in this suit, is now 80 years old. |

Dr. Peters, an eminent Paris physician, repudiates and denounces M. Pasteur's famous treatment for hydrophobia. Reports on the Labor Question.

Two interesting reports of legislative committees appointed to investigate phases of the labor question have been lately made public. One is the report of the committee of the House of Representatives appointed to inquire into the cause of the Western railroad strikes; the other is the report of the committee of the New York action of organized labor, and both agree constraint or intimidation intended to restrict this freedom of employers and unassociated laborers is improper and unlawful.

About twenty years ago I discovered a little sore on my cheek, and the doctors pro bounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years-I had a hacking cough and suit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial. MRS, NANCY J. McCONAUGHEY, Ashe Grove, Tippecanoe Co., Ind.
